

Software Development Specialist

Femergy® is a nonprofit located in Columbus, Ohio, seeking a contracted Software Development Specialist to join our strong team. Our ideal candidate is a self-starter, reliable, organized and a team player. For the past eight years, Femergy® has provided life-skills training, career exploration, college readiness, wellness management, and direct mentorship opportunities for girls and women. Our incoming web app is designed to expand our area of impact and better support the girls in our programs. We are looking for individuals ready to use their skills to help us equip girls and women with the skills, strategies, resources, and inspiration they need to realize their full potential.

Responsibilities (10 hours per week):

- Maintain app functionality on a day-to-day basis
- Update app as needed, maintaining branding throughout
- Send app invites and monitor user participation
- Troubleshoot technical errors
- Maintain communication with Executive Directors, alerting them of participant crises
- Integrate data from various back-end services and databases
- Gather and refine specifications and requirements based on technical needs
- Work with Media Team to match visual design intent

Requirements:

- Familiarity with front end web design – HTML, CSS, JavaScript, etc
- Experience with Ionic, mongoDB, and Angular
- Self-motivated with a positive attitude
- Organized and reliable with multitasking abilities
- Punctual and accurate communicator, responsive to email, telephone calls, and direct communication from staff
- Excellent spoken and written communication skills

Salary: Negotiable, starting at \$16/hour

Job Type: Part-time, contracted, remote. Typical hours are 10 hours per week.
